Minutes

May 16, 2019

6:00pm

- 1. Meeting called to order at 6: 14 pm
- 2. Roll call was taken by Lakeisha Lloyd. Representatives present included the following: Lauren Johnson (CR), Kim Wilson (R), Lakeisha Lloyd (R), Tiffany Similien (CR), and Luciana Brown (CR).
 - Capital Area Community Action Agency staff present included the following people: Nina Self, Nichele Rolle, Darrel James, and Cynthia Valencic.
- 3. Quorum was not established. All action items will be tabled until June's meeting.

4. Consent

a. <u>Minutes-</u> The minutes were reviewed by all members of Policy Council. Members consent to accept the minutes as typed. There were no corrections to be made.

5. Action Items

a. Financial ReportStatement Narrative. Lauren asked why were registration fees and dues so high and will we be doing more trainings at the beginning of the year. Kristin explained how Stephanie will adjust the line item but can't do it until the end of the year. Kristin also plans to budget more in the new budget. Cynthia explained that staff and teacher training are budgeted under a different line item (7430). Lauren was concerned about the amount being spent on classroom supplies. According to her calculations based on the financial report, we only spent \$3700 in 6 months. Nina explained that the majority of school supplies are ordered in bulk in the summer but staff will start purchasing in increments throughout the school year. Cynthia projected we will probably be over budget in repairs and will need to allot more funds to the line item in the next budget.

No quorum present and financial report will be approved at next meeting.

- b. <u>Personnel Actions-</u> No personnel actions at this time.
- 6. <u>Director's Report:</u> Nina stated Tim is unavailable due to a presentation. The 17-18 School Readiness scores were received and they were low. The governor noticed scores statewide were low and asked the Education Secretary to do a task force to find out the reason; we hope to be a part of the task force. Nina stated we will also vote on the budget at the next meeting.

7. Center Updates:

Kim (LBR)- Everything is going ok at Louise B. Royal. Kim asked if a parent does not want their child eating/drinking something that we provide at Head Start is a signed document needed from a health professional. Darrel stated yes a form provided by CCFP (Child Care Food Program) has to be signed by a doctor. We have to show proof to CCFP as to why we are not following our menu or we will not be reimbursed. We are not required to make a substitution but we do. It also has to be approved by the nutritionist Lynn James.

Lakeisha (Mabry)- Lakeisha reported that everything seems to be going well at her center. There was an issue with the handle on the door being broke; however it was repaired in the same week.

- 8. Program Updates: Darrel stated we will not offer school readiness for 19-20 school year. Lauren asked how this will affect the funding for Head Start. Darrel stated it may actually increase the funding because we did not have many enrolled (11) and this will allow us to accept more VPK. Darrel also checked to see if parents were enrolled in Ready Rosie. Kim stated she can tell the educational difference in the children who stay for the VPK program. Lauren asked who sets the goals and who is responsible for tracking the goals. Kristin responded it is a joint effort between managers and overall she tracks the process. The goals are included in the grant and will change with the new grant application. Lauren asked why we are out of compliance with disability services. Kristen explained that Leon County Schools is slow in providing IEP's and also because parents are not showing up for the meetings. Kristin explained the process.
- 9. Office of Head Start Updates: No office of Head Start Updates at this time.
- 10. Chairperson's Report: No chairperson's report at this time.
- 11. Other Business: No other business
- 12. The meeting was adjourned at 7:26 p.m.

Head Start Financial Statement Narrative For the Seven Months Ending April 30, 2019 Capital Area Community Action Agency

As of April 30, 2019, we have completed seven months of the fiscal year and, as a benchmark, we would expect the year-to-date actual expenses and revenue to be around 58% of the annual budget with some Head Start expenses closer the 70%. At month end, the Year to Date Actual Revenue and Expenses are 72% and 67% respectively, with income of \$165,985. This income includes deferred revenues of \$63,499 from the prior fiscal and the revenue from this year's VPK. These funds are earmarked for expected expenses later in the year for restocking of program and classroom supplies.

Year to Date Non-Federal Share (NFS) Match totals \$440,745, or 59% of the \$881,324.25 total match required for the fiscal year ending September 30, 2019. At this point in the year, we would expect to be between 65-70%.

Expenditure Variances and Explanations

The Statement of Revenue and Expenditures tracks year-to-date progress by budget line item. Actual revenues and expenditures are compared to the original budget for each budget line item by amount and percentage. Some budget line items may be below or above the expected percentage at any given point in the year. This can be caused by something as innocuous as the revenue or expense occurring unevenly at different points of time during the year, such as a one-time insurance payment. In other words, one twelfth of every budget item is not necessarily paid each month. Therefore, when there is a significant variance, the following explanations are provided. It is important to note that, while a specific line item may be over budget, the overall Agency budget should not be over budget. Adjustments are often made at the end of a grant or fiscal year to ensure that all budgets are balanced.

<u>Iravel – In Area</u> is slightly over the benchmark budget due to the delivery costs for the Franklin County HeadStart Center. These delivery costs were not anticipated at the beginning of the school year and therefore were not budgeted. Any overages here will either come from Contractual Services or Office Supplies.

<u>Program Supplies-</u>is slightly over benchmark budget primarily due to the addition of bottled water in our centers. The difference in the amount from last fiscal year and this year is the difference in adding Artezia to the other centers.

<u>Kitchen Supplies</u> – is over the budget but in line with the numbers from prior year. The total spent in 2017-2018 was \$23,432.85 – almost twice the budgeted amount.

<u>Contractual Services – Health/Disabilities</u> – is slightly above the budget benchmark, but this is expected and should even out over the year.

<u>Rent/Space Cost</u> – is over the benchmark budget. Unless changed, this item will exceed budget by approximately \$105,000 by year end.

Head Start Financial Statement Narrative For the Seven Months Ending April 30, 2019 Capital Area Community Action Agency

<u>Utilities</u> – are over benchmark budget and will be over budget for the year. The South City location's utilities are over double the amount of prior year. This is a set amount and doesn't fluctuate with usage. It is anticipated that this budget line will be over by \$30,000 by year end.

<u>General Liability and Property Insurance</u> – is over benchmark budget after the 25% down payment and first month payment. This expense is charged over 10 months and much is expended upfront.

<u>Communications</u> – is currently over the benchmark budget with only a couple of repairs in the expenses. This item is forecast to be over budget by year end, unless changes are made.

<u>Repairs and Maintenance – Recurring and Non-recurring</u> – These are both over the budget benchmark (63% combined). Adjustments to the overall budget should be made to accommodate these expenses.

<u>Equipment Maintenance</u> – is currently over the benchmark budget but in line with prior year. Our contracted maintenance is \$14,500 without any unexpected issues so this budget line is forecasted to be over by \$2500.

<u>Technology</u> and <u>Dues and Subscriptions</u> – reflects a number of yearly expenses paid in October so it is over the benchmark budget currently but should even out over the course of the year.

<u>Registrations</u> and <u>Meetings/Workshops/Training</u> – are over the benchmark budget with expenses mostly attributed to the FHSA conference. However, when combined with the budget currently in Training/Staff Development, the three are more in line with what would be expected. Management should continue to monitor these three lines items together to ensure that they are brought to within budget before year end.

<u>Raw Food Cost</u> – is slightly over the budget benchmark. Part of this is due to some charges being miscoded here and part is due to loss associated with Hurricane Michael. Management will continue to monitor this situation and adjust as necessary.

Revenue Variances and Explanations

<u>Government Contracts - State</u> - is over benchmark budget due to both an increase in the payments from VPK and to deferred revenues from the prior fiscal year, which are not included in the budget. Hopefully, the trend will continue.

2018-2019 Annual Self- Assessment Process Overview

The self-assessment process assists with determining whether the management systems and program services currently in place are being properly administered. The annual self-assessment is mandated by rules and regulations established by the following Head Start Act and Head Start Program Performance Standards provisions:

- Pursuant to 42 USC§9837 the Grantee must review and approve all major policies of the Head Start Program, including but not limited to the annual self-assessment; and
- 2) Pursuant to 45 CFR Ch. XIII Subchapter B § 1302.102(b)(2)(i) that at least once each program year, the Grantee must conduct a self- assessment to determine the effectiveness and progress of implementing the goals and objectives of the Head Start program. In addition, the self-assessment is to be performed in accordance with federal regulations and include participation from Policy Council and community members.

The process involved an analysis of a wide array of information including, but not limited to, conducting interviews with parents, teachers, reviewing family files, lesson plans, manuals, records, and reports, classroom observations, and facility observations.

In order to ensure the annual self-assessment was performed in the most effective and efficient manner, self-assessment teams were established and trained. These teams were composed of Head Start staff and parents. Self-assessment teams were asked to assess Capital Area Community Acton Agency Head Start performance based on the Focus Area Two Monitoring Protocol developed by the Office of Head Start. Each Key Performance Area and their indicators of performance were scored using the following metrics.

Self-assessment Performance Metrics

Performance Level

Strength (4) - The majority of the time Community Action consistently <u>exceeds</u> the INDICATOR: in terms of compliance and/or quality.

Opportunity (3) – The majority of the time Community Action <u>meets</u> the INDICATOR: in terms of compliance and/or quality, but this area would be stronger if...

Weakness (2) - The majority of the time Community Action <u>struggles to consistently meet</u> the minimum standards for this INDICATOR: in terms of compliance and/or quality.

Threat (1)- Community Action <u>does not meet</u> this INDICATOR./ Community Action <u>has not implemented</u> the requirements of this INDICATOR.

2018-2019 Self-Assessment Findings

During the 2018-2019 self-assessment process the Community Action self-assessment team evaluated the program on six different domains. The domains were as follows:

- Program Design and Management (3.775),
- Quality Education and Child Development Services (2.898),
- Monitoring and Implementing Quality Health Program Services (3.31),
- Quality Family and Community Engagement Services (3.125),
- Monitoring and Implementing Fiscal Infrastructure (3.83), and
- Monitoring ERSEA Eligibility and Attendance (3.75).

The self- assessment resulted in Community Action identifying multiple areas with opportunity for improvement. There were no overall domains which the self-assessment team found the majority of time Community Action did not meet an indicator or had not implemented the requirements of a performance indicator.

However, within five of the six domains measured, the self-assessment team found indicators that the majority of time Community Action met the indicator in terms of compliance and/or quality, but this area would be stronger if something was done differently. One of the six domains, Quality Education and Child Development Services (2.898), was found to be an area of weakness. The self-assessment team found the majority of the time Community Action struggled to consistently meet the minimum standards for delivering a quality education or quality services in a child development program.

Corrective action plans have been completed for the indicators that were identified as weakness. Further in line with a comment to quality, the program has re-evaluated program practices to strengthen even the domains in which our self-assessment teams identified there is not a definitive weakness, but an opportunity to provide higher quality service to clients.

During the 2018 Legislative Session, House Bill 1079 was passed by the legislature and signed into law by the governor. This law became effective on July 1, 2018.

Distracted Adult HB1079 amended s. 402.305(9), F.S. requiring operators of child care facilities and homes must provide parents with information pertaining to the dangers of leaving a child in a vehicle and tips for prevention during the months of April and September. Providers may create their own flyer or use the one created by the Department.

To ensure that we are in compliance flyers were placed at the centers and parents were asked to sign a sheet indicating they are aware of the new legislation.
